

It's that time of year...

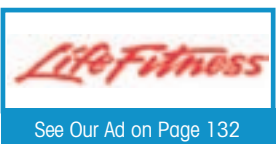

for the *GRF Annual Buyers' Guide*, published in September just prior to when the *Federal Government and Military's new FY2011 Funding* hits the street.

The DoD budget for FY2011 (\$726 billion, \$61.2 billion more than for FY2010) provides a record \$8.8 billion for military family support alone, unprecedented increases for soldier, youth and family fitness and recreation and record support for our Wounded Warriors and Veterans. Think about that – at a time when state and local governments are facing budget cuts and spending freezes, GRF's FEDERAL and MILITARY readership continue to enjoy record budget increases yet again for FY2011!

GRF's subscribers include the decision-makers up and down the chains of command, from the Pentagon, White House and Congress down to the Base and Regional Commanders, Facility Managers, Program Directors and Contracting Officers at every Military installation and Federal Government Agency.

Call today to make sure these key decision makers see your ad and know what you offer when FY2011 begins and throughout the entire year!
